

PATSAKORN KONGKAEW

DATA ANALYST INTERN

Address: Bangna, Bangkok
Phone: 062-220-8738
Email: patsakorn.pkk@gmail.com
Internship Availability: 11 January – 30 April 2027

SUMMARY

Interested in data analytics and its applications in business and public policy, with hands-on experience analyzing government open data and building dashboards using Excel and Power BI. Skilled in organizing data, identifying trends, and communicating findings, with Python skills for data cleaning and analysis. Keen to turn data into actionable insights to solve business problems, understand social issues, and inform policy decisions.

EDUCATION

Bachelor of Arts (Information Studies) - Year 4 **AUGUST 2023 - Present**

Srinakharinwirot University - Current GPA: 3.81
• Relevant Coursework: Data Analysis, Web Development, Database Management.

SELECTED PROJECTS

EduForward — Education Policy Digital Library **APRIL 2026**

Academic Project | HTML, Tailwind CSS, JavaScript
• Curated and organized academic resources on education policy, reform, and inequality into a digital library.
• Contributed to website development with search and filtering by topic, publication year, and resource type to support access to relevant research.

Bangkok’s Highways Accident Data Analysis **OCT 2025 - NOV 2025**

Academic Project | Excel, Power BI, Python, Prophet
• Cleaned and prepared road accident data from Thailand’s Ministry of Transport using Excel and Python (Pandas), and built Power BI dashboards to visualize temporal trends.
• Explored time-series forecasting using Prophet in Python to support road safety analysis.

Children’s Literature Thesis Archive & Dashboard **SEP 2025 - OCT 2025**

Project for the Children’s Literature Department | WordPress, MySQL, Power BI
• Created a digital archive database for children’s literature theses to improve accessibility for students.
• Designed a dashboard to visualize trends in thesis topics over the years using data visualization tools.

Information Studies Alumni Website & Database **APRIL 2025 - MAY 2025**

Academic Project | HTML, CSS, PHP, MySQL
• Developed a responsive alumni website with department news and event registration features.
• Designed and implemented a MySQL database to manage alumni profiles and event registrations

Healthy Lifestyle in Bangkok — Urban Policy Feature **DECEMBER 2024**

Academic Writing Project | Desk Research, Data Storytelling
• Synthesized published statistics and reports to explore unequal access to exercise facilities and green spaces in Bangkok.
• Produced an illustrated feature connecting urban accessibility issues with public policy initiatives and opportunities for improvement.
